

Regional Permit Coordination Office

SWEP

November 2, 2017

Tom Wolf, Governor

Patrick McDonnell, Secretary

Office of Program Integration (OPI)

- The Office of Program Integration develops and coordinates the implementation of initiatives and programs related to planning, permitting, compliance and enforcement across multiple programs and organizations within the agency.

Office of Program Integration (OPI)

- Consistency across regions and programs
- evaluation of statewide program implementation consistency, effectiveness and efficiency;
- coordination and integration of policy and program development with field activities;
- coordination of multi-agency program initiatives;
- direction of specific statewide programs, including compliance and enforcement, environmental emergency response, health and safety, and quality management.

Regional Permit Coordination Office

The Regional Permit Coordination Office was created to provide Chapter 102 and 105 permit application review for long linear projects including pipelines, utilities and transportation
